## ANALYSIS OF VARIOUS TYPES OF PESTICIDE RESIDUES AND/OR DIOXINS AND DIOXIN-LIKE COMPOUNDS, 2021

This table shows the **Full Analyst Members** that have declared to the Secretariat that they are capable of analysing oils and fats and oilseeds for the presence of certain pesticide residues and/or dioxins and dioxin-like compounds. Members wishing to use these services are advised to contact the laboratories to discuss their requirements. On request, the laboratories will provide evidence of their certification by a recognised accreditation body, including the scope of the certificate and the dates of validity of the certificate.
